

TEN-10

Modern Concrete Products LLC (MCP), a part of the Assarain Group of Companies, is managed by the same management of ACP. However, locationally, both the companies have the same vision and inclination to bring in that is best for its customers.

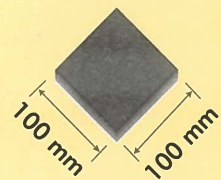

As part of its endeavour to bring new designs, MCP offers an array of colours, shapes, textures and ideas from established to contemporary styles and give its customers the scope to transform any outdoor space. Ten-10 is another such addition to its series and it can be used in combination with Thirty-30 to give its customers a difference in the character of the design that they would like to create for the landscapes. Ten-10 by itself creates a miniature cobble stone effect and this tile comes along with the pledged quality, dimensional accuracy and finish, signature to the style of MCP.

Various colours bring striking, vibrant charm and timeless appeal to any outdoor space which is done by Ten-10 or in combination with Thirty-30 available in stunning array of colours from light to sophisticated modern tones. Ten-10 opens a wealth of design and pattern possibilities. Ten-10's distinctive appearance lightens up the traditional or modern homes and grows in character and beauty as the years go by. Highly durable range can be aesthetically coordinated with other interlocking tiles complimented with ACP's kerbstones to give your home or landscape a unique look.
