

PYRAMID

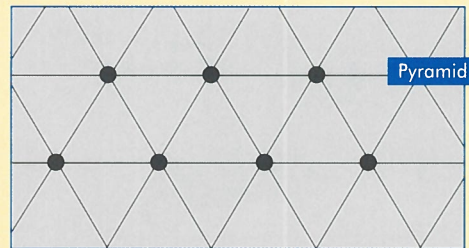

A New Generation Design

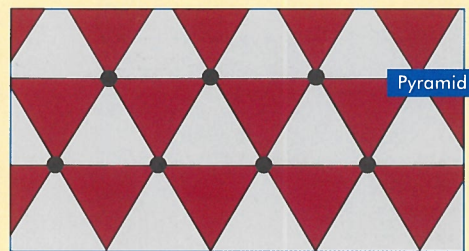

Though many designs are available with ACP, it is noteworthy that the company has always endeavoured to bring in new alternatives to the construction Industry. ACP like always, now brings in the suave selection of 'Pyramid' tiles that gives a complete facelift to pavements lending an altogether different dimension to large open areas.

'Pyramid' tiles are available in a choice of many vibrant colours or hues to ensure that the wide customer base of ACP takes an instant liking to this design range.

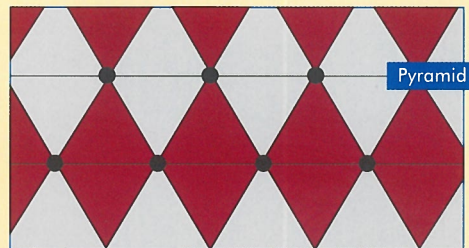

Among many other areas, Pyramid is well suited for walkways, parks, amusement centres, public sit-outs, villas and roof sit-outs, souqs, hypermarkets, theatres, hotels & restaurant outdoors, beach areas, corniches, parking areas etc.
