

# SLIMLINE

Continual development in its product lines has been the hallmark of ACP and as part of its endeavour, we have a comprehensive range of high quality design patterns.

ACP has therefore, yet again, added a beautiful symmetrical design pattern called Slimline. The beauty of this design pattern provides full breathing space in large expanses of paving and makes a perfect showcase of ACP's expertise and prowess to bring in a change in the entire paving industry.

Slimline with its perfect finish converts open barren spaces to formal design features. By using various colours and laying patterns, this unique tile combination can offer a kaleidoscope of various designs leading to aesthetic pavement, homefront or paving of open areas.

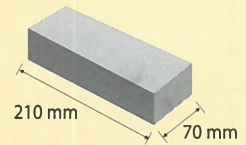

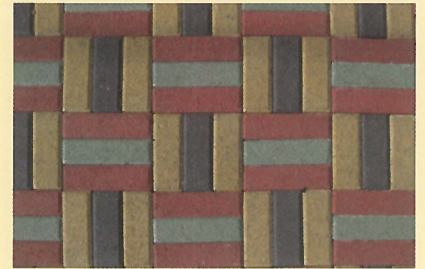

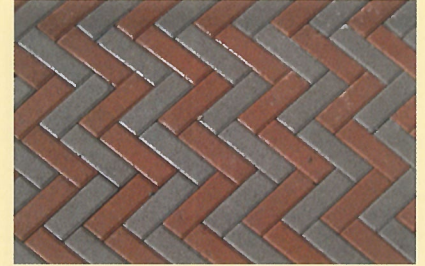

Slimmer than Rectangular tiles, yet with the same attractive appearance, traditionally Slimline tiles can be laid in a vast range of pattern formations to echo a landscaping theme. Slimline also provides great flexibility in mixing and matching with some other interlocking tile patterns and therefore, it presents design possibilities that are endless.

The application areas are many, some of which are as below:

- Roads – Side and central pavements & walkways
- Parks, Amusement Centres, Public Sit-outs, etc
- Villas and roof sit-outs
- Souqs, Hypermarkets, Theatres, Hotels & Restaurant outdoors, etc.
- Port areas, Beach areas, Corniches
- Airports
- Cargo complexes
- Storage depots and industrial areas
- Warehouses
- Bridge deck sides
- Container depots
- Parking areas
- Mosques, Exhibition grounds
- Workshops
- Abattoirs
- Filling stations, etc.
- Other external hard landscaping areas

## Dimensions in mm.

Length	Breadth	Thickness
210	70	60
