

# Twin

ADDING FRESHNESS TO PAVEMENTS

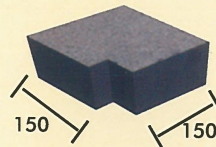

It is now well known that ACP has many 'firsts' to its credit. As a pioneer and market leader in the pavement industry, it has always been the forerunner in bringing in new designs to the market. Accordingly, ACP dedicates the Twin Tile as one of the most versatile designs to its valued customers.

'Twin' has the inherent capability of developing into magical patterns, evolving from interesting permutations and combinations. Thus, Twin emerges as an awesome alternative for anyone looking for a unique design.

The Twin Tile has multi-faceted applications and to top this, Twin, like its name, has twin applications i.e. as a grass paver or a contiguous pavement design. The application areas are many, which would probably be as follow:

- Roads - Side and central pavements or Walkways
- Parks, Amusement Centres, Public Sit-outs etc.
- Villas and roof sit-outs.
- Souqs, Hypermarkets, Theatres, Hotels & Restaurant outdoors etc.
- Port areas, Beach areas, Corniches.
- Airports
- Cargo complexes.
- Storage depots and Industrial areas.
- Warehouses.
- Bridge deck sides.
- Container depots.
- Parking areas.
- Mosques, Exhibition grounds.
- Workshops.
- Abattoirs etc.

Dimensions in mm.		
Length	Breadth	Thickness
200	200	60
